DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-4, 8-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Nakamura et al. (Nakamura), U.S. Patent 6,235,188.

Nakamura discloses the claimed method and apparatus comprising a cooling tower, removing a portion of the recirculating stream to pass said stream through an electrolytic cell that performs oxidation/reduction reactions for generating chlorine, removing solids by filtering said stream and remixing said treated side stream with the main stream before feeding them back to said cooling tower (see figure 1 and column 1). The reference

Art Unit: 1741

does disclose the same relative redox ranges (see column 8). The reference oxidizes the recirculating water by the addition of halogens as claimed (see column 2).

Therefore, since the Nakamura patent discloses each and every limitation, the claims are anticipated.

Response to Arguments

Applicant's arguments with respect to claims 1-4, 8-14 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
